

TECHNICAL DATA SHEET

BETASAN MULTIPURPOSE ANTIBACTERIAL AEROSOL FOGGER

FEATURES:
Betaspray SABS 1853 Formulation
Easy to use
Ozone-friendly

DESCRIPTION

Betasan Multipurpose Antibacterial Aerosol Fogger is an alcohol-based air fogger for use in the food and health industry by inactivating a wide array of potentially harmful microorganisms. When used as directed, the product is effective against all alcohol sensitive bacteria, yeasts and moulds to rapidly and effectively sanitise against up to 25m³ air space / 400mL Fogger. Smaller units have been tailored to smaller areas requiring sanitising, with the product offered in 100mL (6m³) and 250mL (15m³) variants.

METHOD OF USE

Place aerosol on the floor in the centre of the enclosed area to be sanitised. Ensure all windows and doors are closed. Activate the fogger and leave the area immediately. Allow 10 minutes for the product to disperse before re-entry.

PACKAGING

Betasan Multipurpose Antibacterial Aerosol Fogger is packed into 100ml / 250ml and 400mL aerosol cans.

PRECAUTIONS

Extremely flammable aerosol. Keep away from heat/ sparks/ open flames/hotsurfaces – _No smoking. Do not spray onto an open flame or other ignition source. Pressurised container: Do not burn, even after use. In case of fire, use water, CO₂ or dry chemical powder for extinction. Protect from sunlight and do not expose to temperatures exceeding 50°C. Store in a cool dry place, away from foodstuffs.
